## **EXHIBIT F**

## Exhibit 4

	Dage 100		Daga 104
1	Page 102 - KEVIN LUCAS -	1	Page 104   - KEVIN LUCAS -
2	A. Got you.	2	time.
3	Q. And do you see five names here, Ben	3	MR. GAGE: Right, but I don't know
4	Wilson, Evren Ery I can't say his last name	4	that the witness knows that so that's the
5	Eryurek, Jonathan Nelson, Nicholas Harteau, and	5	basis of my objection is you're not be
6	Paul Strong? Do you see that?	6	specific about when you're asking him.
7	A. Yes.	7	Q. 2017, 2018, and 2019, were there
8	O. Were those all in OCTO?	8	technical solutions consultants in Google Cloud
9	MR. GAGE: Objection. At what point	9	outside of OCTO?
10	in time are you talking about?	10	A. Technical solu any level on the
11	MS. GREENE: This is as of November	11	job family, yes.
12	20th, 2017.	12	0. Level 8 or 9.
13	A. So I know Ben Wilson was; I am	13	A. I can't confirm Level 8 or 9 outside
14	familiar with him. The other names look somewhat	14	of OCTO without doing some research, because that
15	familiar so I I would, yes, they were probably	15	job family is used in other parts of Cloud.
16	in OCTO.	16	So in our go-to-market organization,
17	O. Other than these individuals at	17	that is the job family that is used for customer
18	Level 9, were there other technical solutions	18	solutions engineer for which I think, I'm
19	consultants at Level 9 within Cloud not listed	19	almost positive, at that point in time there
20	here?	20	were there was at least one director. Whether
21	MR. GAGE: Objection.	21	it's Level 8 or 9, I'm not sure.
22	A. I wouldn't be able to definitively	22	Q. So with respect to clust customer
23	say without looking at the document myself.	23	-
24		24	solutions engineer, is it your testimony that they also used the technical solutions consultant
25	Q. If you go down to Page 7, beginning	25	ladder?
23	with Line 284, do you know whether any of those	23	raduer:

1 2		1 2	
	- KEVIN LUCAS -		- KEVIN LUCAS -
2	- KEVIN LUCAS - principal technical solutions consultants at Level	2	- KEVIN LUCAS - A. Yes, that is my understanding and I
2 3	- KEVIN LUCAS - principal technical solutions consultants at Level 8 are outside of OCTO?	2 3	- KEVIN LUCAS -  A. Yes, that is my understanding and I think they still do.
2 3 4	- KEVIN LUCAS - principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.	2 3 4	- KEVIN LUCAS -  A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role?
2 3 4 5	- KEVIN LUCAS - principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each	2 3 4 5	- KEVIN LUCAS -  A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role?  A. No, it is not.
2 3 4 5	- KEVIN LUCAS - principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar,	2 3 4 5	- KEVIN LUCAS -  A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role?  A. No, it is not.  Q. Are there other roles that use the
2 3 4 5 6 7	- KEVIN LUCAS - principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar, but I would have to look it all up.	2 3 4 5 6 7	- KEVIN LUCAS -  A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role?  A. No, it is not.  Q. Are there other roles that use the technical solutions consultant ladder?
2 3 4 5 6 7 8	- KEVIN LUCAS - principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar, but I would have to look it all up.  Q. Have you seen this list before?	2 3 4 5 6 7 8	- KEVIN LUCAS -  A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role?  A. No, it is not.  Q. Are there other roles that use the technical solutions consultant ladder?  A. I am not aware of other roles within
2 3 4 5 6 7 8	- KEVIN LUCAS - principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar, but I would have to look it all up.  Q. Have you seen this list before?  A. No.	2 3 4 5 6 7 8	- KEVIN LUCAS -  A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role?  A. No, it is not.  Q. Are there other roles that use the technical solutions consultant ladder?  A. I am not aware of other roles within Cloud, other than the ones that I've mentioned,
2 3 4 5 6 7 8 9	- KEVIN LUCAS - principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar, but I would have to look it all up.  Q. Have you seen this list before?  A. No.  Q. And so if I were to tell you that at	2 3 4 5 6 7 8 9	- KEVIN LUCAS -  A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role?  A. No, it is not.  Q. Are there other roles that use the technical solutions consultant ladder?  A. I am not aware of other roles within Cloud, other than the ones that I've mentioned, that use the TSC job family. There are several
2 3 4 5 6 7 8 9 10	- KEVIN LUCAS -  principal technical solutions consultants at Level  8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar, but I would have to look it all up.  Q. Have you seen this list before?  A. No.  Q. And so if I were to tell you that at any point over you know, this is different	2 3 4 5 6 7 8 9 10	- KEVIN LUCAS -  A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role?  A. No, it is not.  Q. Are there other roles that use the technical solutions consultant ladder?  A. I am not aware of other roles within Cloud, other than the ones that I've mentioned, that use the TSC job family. There are several roles outside of Cloud that use that family.
2 3 4 5 6 7 8 9 10 11	- KEVIN LUCAS -  principal technical solutions consultants at Level  8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar, but I would have to look it all up.  Q. Have you seen this list before?  A. No.  Q. And so if I were to tell you that at any point over you know, this is different snapshots for three different years. If that each	2 3 4 5 6 7 8 9 10 11	A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role?  A. No, it is not.  Q. Are there other roles that use the technical solutions consultant ladder?  A. I am not aware of other roles within Cloud, other than the ones that I've mentioned, that use the TSC job family. There are several roles outside of Cloud that use that family.  Q. Focusing on director level
2 3 4 5 6 7 8 9 10 11 12 13	- KEVIN LUCAS - principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar, but I would have to look it all up.  Q. Have you seen this list before?  A. No.  Q. And so if I were to tell you that at any point over you know, this is different snapshots for three different years. If that each of those snapshots it showed only technical	2 3 4 5 6 7 8 9 10 11 12 13	A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role?  A. No, it is not.  Q. Are there other roles that use the technical solutions consultant ladder?  A. I am not aware of other roles within Cloud, other than the ones that I've mentioned, that use the TSC job family. There are several roles outside of Cloud that use that family.  Q. Focusing on director level roles
2 3 4 5 6 7 8 9 10 11 12 13 14	- KEVIN LUCAS -  principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar, but I would have to look it all up.  Q. Have you seen this list before?  A. No.  Q. And so if I were to tell you that at any point over you know, this is different snapshots for three different years. If that each of those snapshots it showed only technical solutions consultants within OCTO, is it your	2 3 4 5 6 7 8 9 10 11 12 13 14	A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role?  A. No, it is not.  Q. Are there other roles that use the technical solutions consultant ladder?  A. I am not aware of other roles within Cloud, other than the ones that I've mentioned, that use the TSC job family. There are several roles outside of Cloud that use that family.  Q. Focusing on director level roles  A. Okay.
2 3 4 5 6 7 8 9 10 11 12 13 14	- KEVIN LUCAS - principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar, but I would have to look it all up.  Q. Have you seen this list before?  A. No.  Q. And so if I were to tell you that at any point over you know, this is different snapshots for three different years. If that each of those snapshots it showed only technical solutions consultants within OCTO, is it your testimony that there were technical solutions	2 3 4 5 6 7 8 9 10 11 12 13 14 15	A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role?  A. No, it is not.  Q. Are there other roles that use the technical solutions consultant ladder?  A. I am not aware of other roles within Cloud, other than the ones that I've mentioned, that use the TSC job family. There are several roles outside of Cloud that use that family.  Q. Focusing on director level roles  A. Okay.  Q what are the substantive
2 3 4 5 6 7 8 9 10 11 12 13 14 15	- KEVIN LUCAS - principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar, but I would have to look it all up.  Q. Have you seen this list before?  A. No.  Q. And so if I were to tell you that at any point over you know, this is different snapshots for three different years. If that each of those snapshots it showed only technical solutions consultants within OCTO, is it your testimony that there were technical solutions consultants at Levels 8 and 9 within Google Cloud outside of OCTO?  MR. GAGE: Objection.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role? A. No, it is not. Q. Are there other roles that use the technical solutions consultant ladder? A. I am not aware of other roles within Cloud, other than the ones that I've mentioned, that use the TSC job family. There are several roles outside of Cloud that use that family.  Q. Focusing on director level roles A. Okay. Q what are the substantive differences between a director in a technical
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	- KEVIN LUCAS - principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar, but I would have to look it all up.  Q. Have you seen this list before?  A. No.  Q. And so if I were to tell you that at any point over you know, this is different snapshots for three different years. If that each of those snapshots it showed only technical solutions consultants within OCTO, is it your testimony that there were technical solutions consultants at Levels 8 and 9 within Google Cloud outside of OCTO?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role?  A. No, it is not.  Q. Are there other roles that use the technical solutions consultant ladder?  A. I am not aware of other roles within Cloud, other than the ones that I've mentioned, that use the TSC job family. There are several roles outside of Cloud that use that family.  Q. Focusing on director level roles  A. Okay.  Q what are the substantive differences between a director in a technical solutions consultant role and a product management
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	- KEVIN LUCAS - principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar, but I would have to look it all up.  Q. Have you seen this list before?  A. No.  Q. And so if I were to tell you that at any point over you know, this is different snapshots for three different years. If that each of those snapshots it showed only technical solutions consultants within OCTO, is it your testimony that there were technical solutions consultants at Levels 8 and 9 within Google Cloud outside of OCTO?  MR. GAGE: Objection.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role?  A. No, it is not.  Q. Are there other roles that use the technical solutions consultant ladder?  A. I am not aware of other roles within Cloud, other than the ones that I've mentioned, that use the TSC job family. There are several roles outside of Cloud that use that family.  Q. Focusing on director level roles  A. Okay.  Q what are the substantive differences between a director in a technical solutions consultant role and a product management role?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	- KEVIN LUCAS - principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar, but I would have to look it all up.  Q. Have you seen this list before?  A. No.  Q. And so if I were to tell you that at any point over you know, this is different snapshots for three different years. If that each of those snapshots it showed only technical solutions consultants within OCTO, is it your testimony that there were technical solutions consultants at Levels 8 and 9 within Google Cloud outside of OCTO?  MR. GAGE: Objection.  A. Again I	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role? A. No, it is not. Q. Are there other roles that use the technical solutions consultant ladder? A. I am not aware of other roles within Cloud, other than the ones that I've mentioned, that use the TSC job family. There are several roles outside of Cloud that use that family. Q. Focusing on director level roles A. Okay. Q what are the substantive differences between a director in a technical solutions consultant role and a product management role? A. Oh, they're they're rather
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	- KEVIN LUCAS - principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar, but I would have to look it all up.  Q. Have you seen this list before?  A. No.  Q. And so if I were to tell you that at any point over you know, this is different snapshots for three different years. If that each of those snapshots it showed only technical solutions consultants within OCTO, is it your testimony that there were technical solutions consultants at Levels 8 and 9 within Google Cloud outside of OCTO?  MR. GAGE: Objection.  A. Again I  MR. GAGE: Are you talking about a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role? A. No, it is not. Q. Are there other roles that use the technical solutions consultant ladder? A. I am not aware of other roles within Cloud, other than the ones that I've mentioned, that use the TSC job family. There are several roles outside of Cloud that use that family. Q. Focusing on director level roles A. Okay. Q what are the substantive differences between a director in a technical solutions consultant role and a product management role? A. Oh, they're they're rather different roles.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar, but I would have to look it all up.  Q. Have you seen this list before?  A. No.  Q. And so if I were to tell you that at any point over you know, this is different snapshots for three different years. If that each of those snapshots it showed only technical solutions consultants within OCTO, is it your testimony that there were technical solutions consultants at Levels 8 and 9 within Google Cloud outside of OCTO?  MR. GAGE: Objection.  A. Again I  MR. GAGE: Are you talking about a specific point in time, are you talking about	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role?  A. No, it is not.  Q. Are there other roles that use the technical solutions consultant ladder?  A. I am not aware of other roles within Cloud, other than the ones that I've mentioned, that use the TSC job family. There are several roles outside of Cloud that use that family.  Q. Focusing on director level roles  A. Okay.  Q what are the substantive differences between a director in a technical solutions consultant role and a product management role?  A. Oh, they're they're rather different roles.  A product manager a product
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	- KEVIN LUCAS -  principal technical solutions consultants at Level 8 are outside of OCTO?  MR. GAGE: Objection.  A. I would have to look up each individual one. A couple of names sound familiar, but I would have to look it all up.  Q. Have you seen this list before?  A. No.  Q. And so if I were to tell you that at any point over you know, this is different snapshots for three different years. If that each of those snapshots it showed only technical solutions consultants within OCTO, is it your testimony that there were technical solutions consultants at Levels 8 and 9 within Google Cloud outside of OCTO?  MR. GAGE: Objection.  A. Again I  MR. GAGE: Are you talking about a specific point in time, are you talking about today?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. Yes, that is my understanding and I think they still do.  Q. And that's an Eng role?  A. No, it is not.  Q. Are there other roles that use the technical solutions consultant ladder?  A. I am not aware of other roles within Cloud, other than the ones that I've mentioned, that use the TSC job family. There are several roles outside of Cloud that use that family.  Q. Focusing on director level roles  A. Okay.  Q what are the substantive differences between a director in a technical solutions consultant role and a product management role?  A. Oh, they're they're rather different roles.  A product manager a product management director is defining the strategy of

                                                                                     - KEVIN LUCAS -
2
       specific number, but I would say it's very, very
                                                             2
                                                                   managers people management training from
 3
                                                             3
                                                                             I'm not sure if people place much
                   Typically once you move -- or at
 4
                                                                   significance on that aspect of it. Yeah, I -- I
 5
       Level 8 and above. The fast vast majority of
                                                                   don't see that it's -- there's a lot of
 6
       people in those roles are people managers unless
                                                                   significance in it.
 7
       your role is maybe a bit nuanced or specialized or
                                                             7
                                                                                With respect to the distinguished
 8
       divergent in -- in some way. So, for example,
                                                             8
                                                                   technical solutions consultant role --
 9
       I've worked with director-level chief of staff who
                                                             9
10
       was an individual contributor.
                                                                                -- are you aware of a minimum number
                                                            10
                                                                        Q.
11
                   And what significance does being an
                                                                   of years of experience needed for that role?
            0.
                                                            11
12
       individual contributor versus being a person
                                                            12
                                                                                I -- I would have to consult the
       manager have for an individual; how is that -- how
                                                                   quidelines. I would speculate that you said it
13
                                                            13
14
       is that designation used in the decision-making
                                                            14
                                                                   distinguishes L 8, if I remember correctly. I
                                                                   would speculate it's probably somewhere between
15
       process at Google?
                                                            15
16
                   MR. GAGE: Objection.
                                                            16
                                                                   upper teens, maybe twenty.
17
           A.
                   Can I ask you to clarify what
                                                            17
                                                                               What about with respect to the L 9
18
       decision-making process?
                                                            18
                                                                   role?
19
                   I'm trying to understand everything
                                                            19
                                                                                I would say -- and a qualifier to
20
       that may be implicated by someone having the
                                                            20
                                                                   that is relevant years of experience. For the
21
       designation of individual contributor versus
                                                            21
                                                                   L 9, I would probably say just kind of a handful
22
       manager.
                                                            22
                                                                   more than -- than whatever that memo is.
23
                                                            23
            Α.
                   Oh, okay.
                                                                               Do you know this to be the case or is
24
                   MR. GAGE: Objection.
                                                            24
                                                                   this your assumption based on what you know about
25
                   Go ahead.
                                                            25
                                                                   Google generally?
                                                Page 123
                                                                                                             Page 125

                        - KEVIN LUCAS -
                                                             1
                                                                                     - KEVIN LUCAS -
 2
                   Apologies, I'm trying to think
                                                                        A.
                                                                               Well, it's --
 3
       through like the -- the fundamental differences
                                                             3
                                                                               MR. GAGE: Objection.
 4
                                                                                Go ahead.
 5
                   I'm saying it's not diff -- IC versus
                                                             5
                                                                                Without -- without looking -- I said
 6
       people manager isn't necessarily an -- an
                                                                   it is speculative without looking at the -- the
 7
       individual decision; it's a structural decision or
                                                                   specific leveling guidelines; but in observation
 8
       a functional decision, right. So it's -- I think
                                                             8
                                                                   of directors we have brought into the
9
       we could be hard-pressed to find a Level 8
                                                             9
                                                                   organization, that's what leads me to that number.
10
       director saying I want to be an individual
                                                            10
                                                                                When we looked at the leveling
                                                                   quidelines earlier we didn't see a minimum number
11
       contributor and that making sense enough to
                                                            11
12
       actually doing that.
                                                            12
                                                                   of years, correct?
13
                   That said, there are the nuances that
                                                            13
                                                                               MR. GAGE: Objection.
14
       I mentioned before like a chief of staff or highly
                                                            14
                                                                                You can look back at the document if
15
       specialized or nuance role whatever it may be. I
                                                            15
                                                                        you'd like, but -- do you know which document
16
       would say what significance it has, I can't say
                                                            16
                                                                         that was that you're referring to, Cara?
17
       too much because when I think about it from a
                                                            17
                                                                               MS. GREENE: Yeah, give me one
18
       performance or promotion perspective you're still
                                                            18
                                                                        moment.
19
       evaluated on the expectations of your -- your role
                                                            19
                                                                                THE WITNESS: I think it was 10 --
20
       and ladder regardless of people manager versus
                                                            20
                                                                        no.
21
       TCs.
                                                            21
                                                                        Ο.
                                                                               Did you find it for the technical
22
                                                            22
                                                                   solutions consultant?
                   I'm not aware of any compensation
23
                                                            23
                                                                                I haven't yet. I'm clicking through
       differences between people manager versus ICs.
                                                                        Α.
                                                                   each tab.
24
       It's -- it's -- there's a slight difference in
                                                            24
25
       terms of training, whereby we offer people
                                                            25
                                                                        0.
                                                                               All right, I've got it. Give me one
```

2	moment.	2	right now.
3	A. I think I no, that wasn't the one.	3	THE WITNESS: Is that is that a
4	Q. Try Tab 26.	4	good break for you?
5	MR. GAGE: And is that the document	5	MS. GREENE: Sure.
6	you were referring to in your question?	6	THE WITNESS: Does that work?
7	MS. GREENE: It was.	7	MS. GREENE: Uh-huh.
8	A. You're correct, and it is not	8	THE VIDEOGRAPHER: Okay. We're going
9	mentioned in this document; but this document is	9	off the record, the time is 3:54 New York
10	behavorial descriptors across levels, so similar	10	time.
11	to the SWE ladder whereby we articulate	11	(Whereupon, there was a brief recess
12	complexity, scope, things like that across level.	12	in the proceedings.)
13	Q. Are you aware of any other document	13	THE VIDEOGRAPHER: The time is 4:02
14	that includes leveling guidelines for technical	14	p.m. New York time, we're back on the record.
15	solutions consultant?	15	O. Okay. I want you to take a look at
16	A. Not specific to technical solutions	16	what's been marked as Exhibit 11. This is the
17	consultant. I'm trying to find the	17	spreadsheet and so you may by going to the
18	Q. Are you aware of anything that	18	upper there might be a Box in the upper
19	outlines any sort of years requirement with	19	right-hand corner that allows you to choose what
20	respecting with respect to the leveling of	20	format you open up in.
21	technical solutions consultant?	21	A. Okay. Unfortunately it says "Box for
22	A. Nothing unique to TSCs. I apologize,	22	office online has locked," so I can only look at
23	that's why I'm looking a little confused, because	23	it in basically a PDF view. Let me actually go
24	I can't remember seeing anything that is job	24	back and try to right click and open differently.
25	family-specific leveling guidelines.	25	It does not allow me to open it

                        - KEVIN LUCAS -
                                                             1
                                                                                     - KEVIN LUCAS -
       look different?
                                                             2
2
                                                                   that makes sense.
 3
            Α.
                   Day-to-day responsibilities for
                                                             3
                                                                               And with respect to the director of
 4
       software engineering don't change a whole lot from
                                                                   product management, what are the day-to-day
5
       Level 8s to 9. It is similar to our conversation
                                                                   responsibilities for a director of product
 6
       we previously had, whereby either the scope and
                                                             6
                                                                   management Level 8 look like?
 7
       visibility and impact of their role shifts in some
                                                             7
                                                                               Level 8, yeah. There are going to be
 8
                                                             8
                                                                   probably a few different elements there.
9
                   So they are probably more aligned to
                                                             9
                                                                               There's going to be part of their
10
       a higher priority product, perhaps a more kind of
                                                            10
                                                                   time that's spent on strategic direction of the
11
       innovative product if you will. They may start
                                                            11
                                                                   product and the ability defining where we want to
12
       leading a larger organization whereby more,
                                                            12
                                                                   take this product on a multi-year road map and
13
       quote/unquote, products roll up to them.
                                                                   starting to form a point of view on how we deliver
                                                            13
                   So it's more about kind of scope and
14
                                                            14
                                                                   that -- that road map over the next, let's say,
15
       product prior -- priority than shifting day-to-day
                                                            15
                                                                   six months to a few years.
16
       responsibilities from an L 8 to L 9 software
                                                            16
                                                                               There's an element around kind of
17
                                                            17
                                                                   data analysis and customer feedback, so adjusting
       engineer.
18
            0.
                   What are the skills necessary for an
                                                            18
                                                                   how customers are using the product or service
19
       L 8 software engineer?
                                                            19
                                                                   and -- and responding to that feedback in either
20
                   Coding ability is probably the -- the
                                                            20
                                                                   reactive ways to support the need we didn't meet
21
       fore -- the forerunner there for which they still
                                                            21
                                                                   or perhaps proactively thinking about features
22
       have to go through coding interviews when code is
                                                            22
                                                                   that we can build into the product or service that
23
       submitted in their interview packets, et cetera,
                                                            23
                                                                   may unlock value to their business that they may
24
       so that is probably the largest one.
                                                            24
                                                                   not necessarily see.
                                                                               L 8 product managers are -- are
25
                   There's going to be elements,
                                                            25
                                                Page 175
                                                                                                             Page 177
1
                        - KEVIN LUCAS -
                                                             1
                                                                                     - KEVIN LUCAS -
 2
       depending on which track you're on, of leading a
                                                                   people leaders, so there's not a kind of
 3
       team or organization. You're probably gonna to
                                                                   individual or technical track in the manager
 4
       see elements of strategic thinking to execution
                                                                   track; it's all one. So they're likely lead a --
 5
       because you have to be able to work with product
                                                                   probably a small to medium-sized team of product
 6
       managers on -- on kind of building up that product
                                                                   managers on respective product or groups of
 7
       road map, but you also have to -- with production
                                                                   related products.
 8
       managers on building the product road map and then
                                                                               And then similar to software
9
       working with frontline engineers to actually code
                                                             9
                                                                   engineering, there's a portion of their time
       the products themselves.
                                                                   that's spent in kind of meeting, corroborating
10
                                                            10
11
                   So it's a pretty interesting blend of
                                                                   with Eng, talking about feasibility and product
                                                            11
12
       technical depth and kind of product leadership.
                                                            12
                                                                   road maps, and how we actually think about
13
                                                            13
                                                                   building these -- these over time.
14
                   MS. GREENE: Hope, can you read back
                                                            14
                                                                               Similar to software engineering, the
15
            the last question. Just the question, not
                                                            15
                                                                   difference between L 9 -- L 8 and L 9 is largely
16
            the answer.
                                                            16
                                                                   scrope, scrope -- scope, product complexity, or
17
                   (The question requested was read back
                                                            17
                                                                   product portfolios that we will likely grow them
18
           by the reporter.)
                                                            18
                                                                   into additional prod -- roles that have
19
            Q.
                   And what different skills are is
                                                            19
                                                                   responsibility for additional products and/or ask
20
       required of a Level 9 --
                                                            20
                                                                   them to build out more nascent products. So it's
                   MR. GAGE: Objection.
21
                                                            21
                                                                   going to be the innovation side of it.
22
                   -- a Level 9 software engineer?
                                                            22
            Ο.
                                                                               And I apologize if you already
23
                   If I -- I would probably say it's
                                                            23
                                                                   answered this: Is -- product management, is that
24
       just greater depth or ability of what I just
                                                            24
                                                                   considered an Eng role as you consider it?
```

25

So Eng is most often referred to as

25

mentioned. So similar buckets, just more of if
